

We are now Refinitiv, formerly the Financial and Risk business of Thomson Reuters. We've set a bold course for the future – both ours and yours – and are introducing our new brand to the world.

As our brand migration will be gradual, you will see traces of our past through documentation, videos, and digital platforms.

Thank you for joining us on our brand journey.

REFINITIVTM

Thomson Reuters REDI®

Bringing advanced, broker-neutral, multi-asset trade execution to the buy side

As a trader, you're faced with a number of challenges such as the pressure to lower costs and the relentless shift towards automation. You also need to find that competitive edge to stay ahead. An end-to-end trading solution for your pre-trade, trade and post-trade requirements can now be a reality. To help you trade smarter, faster and more efficiently, Thomson Reuters offers you an open and powerful trading platform, so you can choose the right solution for your trading workflow.

CONTENT & FEATURES

Global, multi-asset coverage

Execute any listed equity, options or futures instrument in over 80 countries across the Americas, Europe, the Middle East, and Africa through our single, easy-to-use platform.

Powerful execution and risk capabilities

Implement a wide array of strategies using an advanced suite of tools, including Spread Trader, Portfolio Trader, Risk Manager, Trading Analytics and more.

Flexibility to meet your needs, now and in the future

Tailor the platform to meet your specific workflow, set your own hot keys, link windows, create alerts and signals, and more. All with the ability to easily scale as your needs change.

Comprehensive, end-to-end coverage

Manage the entire trade lifecycle using our pre-trade analytics, sophisticated execution tools and post-trade processing capabilities.

Unrivaled support

Leverage our follow-the-sun support model offered by product experts in each major global financial hub, bringing deep understanding of electronic trading and local market structures.

Access hundreds of counterparties

Gain access to more than 200 certified execution brokers, many of the major prime and clearing brokers as well as the over 650 brokers on the Autex Trade Route service.

The REDI/Eikon Combination

Thomson Reuters REDI is an award-winning execution management system (EMS) that offers multi-asset trading functionality, powerful workflow and compliance tools, and rich analytics via desktop, cloud and API.

Trade equities, futures and options with over 200 brokers in more than 80 countries, all on one interface that provides you with:

- Portfolio and spread trading
- Charting, workflow and compliance tools
- Perspective analytics and insights on your orders
- Thomson Reuters Eikon is a next-generation financial markets desktop. With Eikon content running alongside REDI, you get open and powerful pre-trade capabilities. Plus, you have access to a growing suite of trader-focused apps and premier content derived from natural language search.

- Eikon Messenger connects you to a community of over 300,000 verified financial professionals across more than 30,000 firms in 180 countries. Share text, live data, charts and analytics, and collaborate with your network from a single platform.
- Thomson Reuters Autex® suite provides access to the Autex IOI network and Advertised Trades Apps, as well as Autex Trade Route (ATR) – one of the world's largest FIX order routing networks handling order flow of over 40 billion shares per day.
- Thomson Reuters Elektron® delivers low-latency feeds from over 400 exchange-traded and OTC markets, along with analytics, distribution platforms and transactional connectivity to support financial workflow applications, including Eikon. As a REDI user, when you subscribe to Eikon, this combination will potentially eliminate any duplicate market data costs that you may otherwise be paying.
