

# HOW CAN YOU TRANSFORM ISLAMIC FINANCE CHALLENGES INTO GROWTH OPPORTUNITIES?

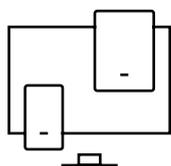

Reach out to Refinitiv Islamic Finance Gateway  
Solutions for the answers that matter

# Unlock your potential with our insights and market intelligence

## Knowledge solutions for the global Islamic finance community

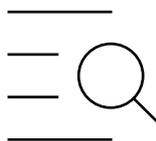

At Refinitiv, we build on our expertise and knowledge of Islamic finance to address key industry challenges and transform them into growth opportunities.

Our Islamic finance business will enable your organization to unlock its potential and explore strategic growth opportunities through our industry-leading market intelligence and customized solutions.

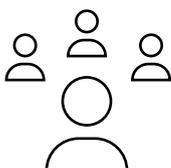

### Islamic Finance Eikon

Eikon is the world's leading independent source of intelligent information for businesses and professionals operating in the global Islamic finance industry. It offers access to market intelligence and insights covering all major Shariah-compliant asset classes. Eikon also provides users with news and research on key industry developments, and access to a comprehensive database of Shariah and legal content including standards, regulations, fatawa and more.

### Research and intelligence services

We deliver the most reliable research and market intelligence on Islamic finance, leveraging our expertise and network in the industry. Our reports cover various Islamic finance industries, markets and assets classes, offering in-depth analysis and insights. These insights are regularly featured at major industry events and in leading publications and help our clients to reach their full potential and empower their business aspirations.

### Islamic finance content solutions

Our expertise in providing bespoke Islamic finance content enables our clients to develop strategic objectives and position themselves to maximize their potential in the industry. Our clients include governments, multilateral organizations and leading financial institutions. We also offer customized networking support for conferences, seminars, roundtables, awards, newsletters, social media and more.

### Islamic finance trading solutions

We develop innovative Islamic finance trading and workflow solutions that leverage our capabilities and technology infrastructure to address the needs of Islamic financial institutions. Our cutting-edge platform solutions are designed to offer comprehensive tools for key treasury functions in the industry. Our current solutions address the entire trading cycle for Islamic finance instruments including primary dealing, secondary market trading, bilateral transactions and portfolio management.
