

REFINITIV® ALPHADESK® MOBILE

Refinitiv is introducing the AlphaDesk Mobile capability for its award-winning Refinitiv® AlphaDesk® OMS and PMS application. As an add-on to AlphaDesk, users gain access to real-time positions, P&L and trading without being tethered to their desktop.

Value add

- Use on the go with any device supporting Web browsing AlphaDesk Mobile is an HTML5 application running the latest Web technology and is device agnostic
- Value your portfolio in real time with streaming price connectivity to Refinitiv® Data Platform. Sign-on controls ensure licensed data seamlessly switches from desktop to mobile on log-in
- Trade anywhere with a simplified web-based trade entry
- Don't miss out on a market movement or trade opportunity
- Peace of mind with underlying AlphaDesk OMS/PMS performing compliance checks and built-in synchronisation with mobile system

Capabilities

Position monitoring

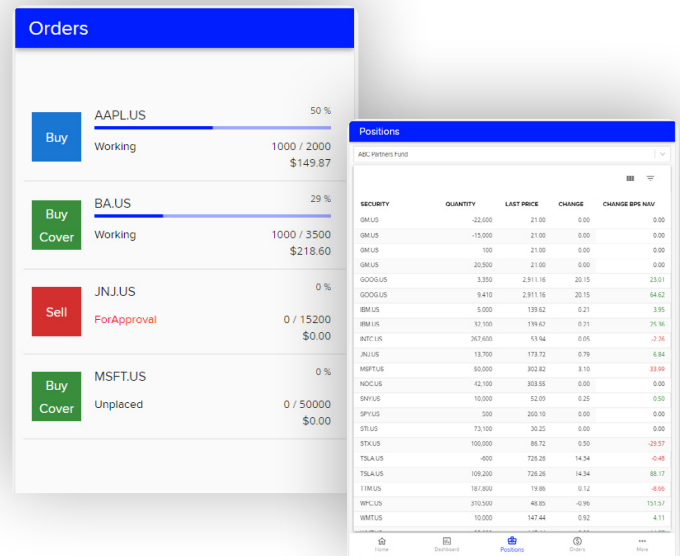

- Real-time position and pricing for entire portfolio
- Position grid with holdings detail including position profit contribution, active order quantities and exposures
- Customisable dashboard tables summarising portfolio holdings (exposures, performance, by attribute, top 10 holdings, etc...)

Real-time data

- Refinitiv feed permissions seamlessly transferred to mobile ensuring compliance with exchange licencing requirements (no additional exchange fees)
- Data fed through Refinitiv's Data Platform – a cloud-based API to Refinitiv's leading market data

Order management

- View all orders in progress with a mobile order blotter
- Comprehensive view of compliance, locates and order progress
- Support for advanced trade entry workflows including holdings-based trade sizing and pre-allocation, multiple broker order creation, GTC order entry with multi-day management
- Compliance checked against the full AlphaDesk rule library
- Access bid and ask prices on trade entry
