

We are now Refinitiv, formerly the Financial and Risk business of Thomson Reuters. We've set a bold course for the future – both ours and yours – and are introducing our new brand to the world.

As our brand migration will be gradual, you will see traces of our past through documentation, videos, and digital platforms.

Thank you for joining us on our brand journey.

# ARGUS ENERGY DATA AND NEWS ON THOMSON REUTERS

REUTERS/Regis Duvignau

Argus price assessments are widely used in the energy industry in physical supply contracts and for the settlement and clearing of financial derivatives.

Argus prices are also used as a reference in swaps markets, in mark-to-market, project finance, taxation, royalties and reserve accounting. Argus offers full service provision across geographies and new assessments are created continuously to reflect changing dynamics and flows.

Take advantage of Argus data on Thomson Reuters to see where the markets may be heading and to plan your next moves.

### KEY BENEFITS:

- Market-appropriate methodology developed in partnership with the industry
- Full range of international energy market coverage
- Industry-trusted prices, used as financial benchmarks and physical indexes
- Ability to analyse cross-market developments
- Intelligent, insightful commentary and opinion
- Integrity, transparency and reliability

### KEY FEATURES:

- End-of-day prices for all international energy sectors with the ability to analyse this data via charts and spreadsheets
- Access to intraday deal and bid/offer information for European oil markets via easy-to-read bulletin boards
- Live market-moving news and commentaries
- End-of-day summary reports delivered via PDFs
- Quick and convenient access through a single desktop

### WHAT'S INCLUDED?

- **Gasoline** – Eurobob – the industry standard physical index and derivative benchmark in northern Europe
- **LPG** – cif Ara large, ANSI – the industry standard physical and derivative indexes in northern Europe; the Argus Far East Index (AFEI) is the industry standard physical index and the derivative benchmark in Asia for LPG; daf Brest prices are used to price LPG rail cargoes moving into Poland.
- **Crude** – ASCI™ – the sour crude index used by Saudi Arabia, Iraq and Kuwait for exports into the U.S.
- **Coal** – API 2 and API 4, produced jointly with IHS McCloskey – used as the basis for physical supply into Europe and Asia and for 90% of the world's traded derivatives
- **Biodiesel** – the Argus FAME O, RME, PME and SME assessments – the standard basis for physical and swaps deals

### ABOUT ARGUS:

Argus Media is a leading independent price reporting agency covering energy markets around the world. Founded in 1970, Argus has offices in 21 countries and reports on oil, coal, LPG, natural gas, bioenergy, emissions, power, fertilizer, petrochemicals and metals markets as well as covering freight and other transport issues. Argus assesses spot and forward prices for physical and derivative markets and provides detailed market commentary, coverage of deals done as well as analytical news. Additional information is available at [www.argusmedia.com](http://www.argusmedia.com).

### ABOUT DATASCOPE SELECT

Thomson Reuters DataScope Select is a strategic data delivery platform for non-streaming content globally. The platform is a full cross-asset offering with intelligently linked data for all Thomson Reuters DataScope content, including reference data, corporate actions, legal entity data, end-of-day/intraday pricing and Evaluated Pricing Services. It offers three flexible data delivery interfaces – browser based, FTP and a Web service API.

### HOW TO ACCESS?

The content will be supported in intraday, composite, end-of-day, and Timeseries extractions, with the option to access and download the daily correction and weekend pricing files. Argus market data is fee liable. Please contact your Thomson Reuters Account Manager for access and further information.
