

# ICIS DATA ON REFINITIV® EIKON

ICIS provides quality market intelligence and pricing information for global petrochemical and energy markets, including China. It offers unbiased and independent price assessments and indices that are widely quoted as benchmarks in contracts.

Take advantage of ICIS data on Refinitiv® Eikon to see where the markets may be heading and make better informed trading and planning decisions.

## Key benefits

- ICIS data is used in all areas of decision making, such as front-office trading, middle-office risk, and back-office settlements
- Use ICIS's independent prices to strengthen your position in price negotiations, contracts and deals
- Understand price drivers and fluctuations, review trends and build forecasts
- Mitigate risk using our objective analysis
- Benefit from a full historical pricing archive – invaluable when analyzing price developments, forecasting and developing your own price formulas

## Key features

- More than 30 years of industry insight and data
- Access to a suite of ICIS price assessments and indices, including Heren proprietary indices
- Covers all major trading regions and domestic markets, including China
- Access to historical pricing data
- A proven, robust methodology that meets market needs, with deals that have been verified by both buyer and seller providing the foundation of ICIS price assessments
- ICIS prices reflect information gathered from a wide cross-section of the market, including purchasers, producers, traders and distributors
- ICIS natural gas price assessments and Heren proprietary indices have been used as benchmarks in the industry for decades

ICIS produces pricing data for all major petrochemical, energy and fertilizer markets, including:

- |                 |                               |                 |
|-----------------|-------------------------------|-----------------|
| • Olefins       | • Crude oil                   | • Polymers      |

ICIS covers over 180 commodities. For a full list of markets visit [www.icis.com](http://www.icis.com)

## About ICIS

ICIS is the world's largest petrochemical market information provider and has established energy and fertilizer divisions. It brings liquidity and transparency to these sectors, giving you the information you need to follow, analyze and evaluate the global petrochemical, energy and fertilizer markets. Additional information is available at [www.icis.com](http://www.icis.com)

## About Refinitiv® DataScope Select

DataScope Select is a strategic data delivery platform for non-streaming content. The platform is a full cross-asset offering with intelligently linked data for all DataScope content, including reference data, corporate actions, legal entity data, end-of-day/intraday pricing and evaluated pricing services. It offers three flexible data delivery interfaces – browser based, FTP and a Web service API.

## How to access

The content is supported in intraday, composite, end-of-day and time series extractions, with the option to access and download the daily correction and weekend pricing files.

ICIS market data is fee liable. Please contact your Refinitiv Account Manager for access and further information.

## About Eikon

Eikon delivers the complete package for successful commodity trading and market analysis, giving you everything you need in one place. Benefit from a combination that offers you unique insight into the metals, energy and agriculture markets – more relevant information in more usable forms, more quickly, delivered via the industry's most intuitive and flexible user interface.

## How to access

To access ICIS data on your desktop, simply type **0#ICIS** into a quote object or browser (F4) and press **ENTER**.

For more information on ICIS services available on your desktop, please contact your local Refinitiv Specialist.

Refinitiv is one of the world's largest providers of financial markets data and infrastructure, serving over 40,000 institutions in approximately 190 countries. It provides leading data and insights, trading platforms, and open data and technology platforms that connect a thriving global financial markets community – driving performance in trading, investment, wealth management, regulatory compliance, market data management, enterprise risk and fighting financial crime.
