

We are now Refinitiv, formerly the Financial and Risk business of Thomson Reuters. We've set a bold course for the future – both ours and yours – and are introducing our new brand to the world.

As our brand migration will be gradual, you will see traces of our past through documentation, videos, and digital platforms.

Thank you for joining us on our brand journey.

# THOMSON REUTERS DATASCOPE SELECT

THOMSON REUTERS FINANCIAL AND RISK MANAGEMENT SOLUTIONS

Today more than ever you need high quality, rich and relevant data to help deliver profitable insights so you can see and seize new opportunities – ahead of your competitors.

That's precisely where Thomson Reuters DataScope Select comes in. It allows you to integrate the data you need in a way that works for your specific business needs. It offers a variety of packages and delivery platforms.

DataScope Select covers all commodities reference data, including independent price assessments, fundamentals and forward prices from providers such as Platts and Argus.

## CONNECTIVITY AND INTEGRATION

We understand the importance of integrating with critical Enterprise systems so you can leverage reputable and timely Market Data throughout your organization.

To make DataScope Select even easier to integrate, we've worked closely with a number of leading solution providers in areas of Enterprise Risk Management and Enterprise Data Management, and have successfully built system connectors with OpenLink, Allegro, Datagenic, Zema, Morningstar, Brady, Murex, Calypso and other key providers.

## BREATH AND DEPTH OF COVERAGE

Our unrivalled data coverage puts us in a unique position to deliver highly valuable 3rd party data, as well as our own proprietary content via DataScope Select.

Our content roadmap is constantly expanding and we're always looking to add more data for your benefit. Examples include:

- **Oil:** Global crude and product spots/forwards/diffs, Fair Value swaps and strips, Polymerupdate, independent price assessments, fundamentals and forward prices from Argus, Platts, ICIS Heren.
- **Metals:** Metal Bulletin prices & indices, Asian Metal (Ferrous Metals Spot prices), ETF Physical holdings, CuSteel (Chinese Ferrous Spot prices) etc.
- **Agriculture:** Editorial sourced prices – CIF/FOB US, French Spot OTC prices, Euvegoils, Asia editorial (palm), Brazil Grains – Prospere, JJH, Jacobsen etc.

## DELIVERED THE WAY YOU NEED IT – FLEXIBLE OPTIONS AND PACKAGES

- Integrate the data you need in a way that works for your business. Thomson Reuters DataScope for Commodities offers a variety of packages and delivery platforms.
- Extraction definition, scheduling and delivery can easily be controlled manually from the browser, with XML based actions submitted to the FTP servers, or using the web services API.
- Commodities data is available via the DataScope delivery platforms, which are easy to integrate within existing workflows and offer a flexible set of implementation options both deployed and hosted – browser-based, FTP, or web service API.

## WHY THOMSON REUTERS?

### Widest data coverage

Thomson Reuters has unrivalled coverage of market data, evaluated and contributed pricing, corporate actions data, legal entity and compliance data, and other differentiated content.

### Better data quality, integration and support

We have decades of experience in integrating and distributing market data, ensuring data quality "out of the box."

### 24/7 Service

Our global service centers can offer you support around the clock and our local account teams can respond quickly to your queries.

### Global presence

Thomson Reuters is committed to providing support, account management, hosting, development and exchange relationships, worldwide.

### Managing Valuation Risk

We have made major investments in bringing accurate, transparent pricing for hard to price fixed income securities and credit derivatives to clients. Our professional evaluated pricing service is delivered by a team of more than 100 experts around the globe, who are in constant contact with market participants. Using our unrivalled range of data and our expertise, we can provide reliable prices for individual instruments or entire portfolios.

The intelligence, technology and human expertise  
you need to find trusted answers.
