We are now Refinitiv, formerly the Financial and Risk business of Thomson Reuters. We’ve set a bold course for the future – both ours and yours – and are introducing our new brand to the world.

As our brand migration will be gradual, you will see traces of our past through documentation, videos, and digital platforms.

Thank you for joining us on our brand journey.
Thomson Reuters Datastream Direct is a web-based global research solution for economists and strategists that enables sophisticated analysis across a broad range of financial instruments. Datastream Direct allows you to analyze and map historical trends and relationships, validate trading ideas, and generate new opportunities. Datastream Direct also delivers real-time market information such as Reuters News, economic research, and events to keep you abreast of the latest market developments. In addition, this solution features integrated publishing and collaboration tools that enable you to share your insights efficiently.

**ACCESS THE WORLD’S MOST COMPREHENSIVE TIME SERIES DATABASE**

Datastream offers access to an unrivaled set of historical financial content that allows users to investigate the correlations and relationships between global economic indicators and asset classes.

You have the ability to blend together different content sets and better understand how indicators in one field impact another.

The depth and breadth of data that you can analyze is truly remarkable:

- Up to 50 years of history on many series
- Over 6.5 million global financial instruments and indicators
- Over 10,000 different fields
- Over 85,000 active (and 80,000 inactive) securities
- Covering 175 countries in 60 global markets
- Totaling over 140 million time series

**GENERATE NEW IDEAS WITH POWERFUL INTERACTIVE CHARTING**

Datastream Direct simplifies the graphical exploration of trends and relationships between series. Our intuitive interface allows for easy manipulation of content to help test ideas, construct themes, forecast market future conditions, understand cross asset relationships and identify patterns.

For example, you can identify the lag or leads to use for the best correlations between series, enabling new research ideas to be quickly evaluated. Our interface makes it easy to retrieve and analyze any series, from private equity indices to exchange traded funds to commodity prices.

**STAY ON TOP OF BREAKING DEVELOPMENTS WITH REAL-TIME NEWS, EVENTS AND MARKET DATA**

Datastream Direct provides a full range of real-time market data, including streaming economic news from Reuters International Securities News and editorials from Reuters Breakingviews. In addition, our Reuters Insider service delivers online video content that goes beyond the headlines to provide in-depth analysis on the markets you follow. Our solution also includes access to:

- Economic research reports from our First Call research database
- Event calendars, live event audio and transcripts
- Real-time and delayed exchange data

**EASILY INTEGRATE DATASTREAM INFORMATION INTO YOUR EXISTING WORKFLOW**

Datastream for Office enables you to build complex models and reports without using the Datastream desktop interface. Data and charts can be linked within Microsoft® Excel, PowerPoint or Word documents so you can create spreadsheets, presentations and documents that can be quickly refreshed with the latest data at the click of a button. Datastream content can also be incorporated with MATLAB and EViews.

**ABOUT THOMSON REUTERS**

Thomson Reuters is the world’s leading source of intelligent information for businesses and professionals. We combine industry expertise with innovative technology to deliver critical information to leading decision makers in the financial, legal, tax and accounting, scientific, healthcare and media markets, powered by the world’s most trusted news organization. With headquarters in New York and major operations in London and Eagan, Minnesota, Thomson Reuters employs more than 50,000 people in 93 countries. Thomson Reuters shares are listed on the New York Stock Exchange (NYSE: TRI), Toronto Stock Exchange (TSX: TRI), London Stock Exchange (LSE: TRIL), and Nasdaq (NASDAQ: TRIN). For more information, go to www.thomsonreuters.com.

Datastream Direct enables you to investigate macroeconomic trends and spot opportunities with powerful charting capabilities.
With Datastream for Office you can:

- Set up dynamic point-in-time and historical data links within Excel
- Manage links within Excel to create presentations containing sophisticated charts and data
- Create symbol lists directly from a highlighted range in Excel
- Select and edit your mathematical expressions
- Refresh or edit Datastream charts right from Microsoft spreadsheets, presentations, and documents

SHARE YOUR INSIGHT AND COLLABORATE MORE EFFICIENTLY

Datastream Direct includes integrated publishing and collaboration tools that streamline your workflow. Our powerful annotation, formatting and dynamic publishing tools increase your efficiency in generating reports and help deliver your insight to colleagues in real time.

In addition, our Thomson Reuters Messenger enables instant communication between you and your colleagues, as well as over 130,000 financial professionals around the world.
