Refinitiv provides industry-leading equity and equity-related transaction information and league tables to the global deal-making industry, comprising nearly 350,000 global equity and equity-related deals since the 1970s. Refinitiv relies upon direct deal submissions from global deal makers coupled with rigorous sourcing of regulatory filings, newswires and company press releases to gather timely and detailed equity issuance information.

Content overview
All issues of global equity and equity-related transactions, including offerings of common stock (includes IPOs, secondary offerings and Rule 144a stock offerings), convertible debt, and convertible preferred stock.

Database statistics
Date range: 1970s to present
Geography: Worldwide
Coverage: Nearly 350,000 equity deals
Update frequency: Hourly

Key content highlights
Over 1,800 data items, including: offer price, offering terms, use of proceeds, book and co-managers, legal counsel, auditors and trustees, fees and expenses, issuer profiles, filing information, security types, primary and secondary shares offered, shares outstanding, dilution and over-allotments, relevant aftermarket pricing, dividends and yield and breakdown of expenses, offering size and IFR comments.

Who uses the data?
Investment banks, law firms, educational institutions, hedge funds, trustees and business consultants use deals data to monitor and report on equity deal activity, perform market share analysis, identify new business opportunities and conduct lost business analysis, produce pitch books and marketing collateral, and research comparable equity deals.

Sample applications
- What are the ten most recent IPOs in the U.S.?
- What is your firm’s ranking and market share in the overall equity market?
- As an underwriter, what is your relative market share in IPO activity?
- Which IPOs came to market at, above or below original price range?

Sources
Refinitiv’s comprehensive equity capital markets content is sourced through direct deal submissions from global banking and legal contributors coupled with extensive research performed by a global team of dedicated research analysts across a broad range of sources, including regulatory filings, corporate statements, media and pricing wires to attain the most robust information pertinent to a transaction.

Database coverage
Refinitiv includes underwritten deals, private placements and best efforts deals in all database products.

Quality and timeliness
A robust series of quality assurance checks are processed daily to ensure the highest-quality content is available to clients.

Equity capital markets content is updated hourly on Refinitiv products.

International Financing Review
Since 1974, IFR® has been the world’s leading source of capital markets intelligence, providing senior investment banking professionals with unbiased, industry-leading commentary and analysis to help inform their deal-making decisions.
