

We are now Refinitiv, formerly the Financial and Risk business of Thomson Reuters. We've set a bold course for the future – both ours and yours – and are introducing our new brand to the world.

As our brand migration will be gradual, you will see traces of our past through documentation, videos, and digital platforms.

Thank you for joining us on our brand journey.

**REFINITIV**<sup>TM</sup> 

The Refinitiv logo, featuring the word 'REFINITIV' in a bold, black, sans-serif font, followed by a trademark symbol (TM) and a blue graphic symbol. The symbol is a stylized 'R' composed of two perpendicular lines of equal length, with the top-right corner cut off at a 45-degree angle.

# THOMSON REUTERS ECONOMICS DATA

## Unrivaled deep and consistent global economics

Thomson Reuters Economics Data integrates in-depth economic coverage, consistent data history and critical timeliness on one platform with unparalleled financial market data.

Thomson Reuters provides you with extensive analytics to track and respond to economic factors that move markets and affect your business.

A unique offering of macro data such as national, financial, and external accounts, industrial activity and labor indicators, and micro details on housing, energy, automotive, and other industries, sourced from the world's leading content sets with the names you know and trust: Datastream, IBES Estimates, StarMine™ Analytics, Reuters News.

Together, these sets deliver the content you need to uncover insights and discover opportunities faster, with a clear emphasis on factors affecting global financial market performance.

### COMPREHENSIVE CONTENT

Featuring more than 4 million time series from national and international agencies, associations, and research institutions, our extensive content includes historical and forecast statistics from developed and emerging markets. The database has grown significantly as we combine the two highly respected collections of Datastream and Ecowin into a single peerless offering.

Thomson Reuters is committed to sourcing data directly from primary, timely, domestic sources for 118 countries. Over 465,500 time series are available from over 700 such agencies. European Area and Union coverage from Eurostat, the European Central Bank, and European Commission is exhaustive.

The remaining nations are profiled by data collected from international agencies and other secondary sources. Much of the data is adjusted for comparability across geographies by sources such as the International Monetary Fund, World Bank, and OECD. Forecasts for over 400 concepts are available from the Economist Intelligence Unit, Consensus Economics, and international agencies.

Datastream Economics provides consistent histories which extend back 35 or more years for G7, 20 or more for major markets, and 5 to 10 for emerging nations.

Over 4 million time series available for 124 markets with comparable data from 130 international agencies

### A FULL PICTURE OF ECONOMIC ACTIVITY

- Market-moving and key indicators from in-country sources and news releases
- Consumer confidence and business outlook indices and survey results produced by local institutions and respected by analysts including the Thomson Reuters/University of Michigan and OeKB indices. Macroeconomic statistics from country statistical agencies, central banks, ministries of finance and labor that profile the economies
- Industry and other microeconomic content from national sources and also international trade associations. Forecasts across countries from renowned international sources – Economist Intelligence Unit, Consensus Economics, and official international organizations

### ABOUT THOMSON REUTERS FINANCIAL AND RISK

Financial and risk management solutions from Thomson Reuters help investors, traders, and compliance professionals overcome their three most pressing challenges: to drive profits; to connect and collaborate via open, secure networks; and to efficiently manage risk and regulation.
