

MAKE YOUR ESG IMPACT KNOWN

Contribute your Environmental, Social, and Governance (ESG) data to Refinitiv with the ESG Contributor Tool

Join a global community of more than 200,000 market players

Refinitiv recognises the increasingly critical importance of transparent, accurate and comparable ESG data for the financial industry. We offer one of the most comprehensive ESG databases in the industry, with data on over 12,500 public and private companies, across 76 countries.

The ESG Contributor Tool helps you manage your firm's ESG data. By using our [free, self-service workflow tool](#) – or working directly with our [Contributor Relations Team](#) – your data is made available to institutional investment firms, asset managers, investors, corporations, universities and research firms across our suite of products. Refinitiv products allow the financial community to easily integrate ESG factors into portfolio analysis, equity research, screening and quantitative analysis.

Why contribute?

- **Measure your ESG performance** – you'll have the ability to view all ESG measures and scores for your company across a customisable time frame. See how you perform across each of the UN Sustainable Development Goals, and benchmark against your peers
- **Enhance and grow your reputation** – ensure your firm is recognised for contributing positively towards sustainable development and meeting socially responsible criteria. Your data will become part of a universe for building ESG-themed indices and funds, ensuring higher market attention
- **Gain competitive advantage** – the ESG Contributor Tool helps you to review, update and publish your firm's ESG data within the Refinitiv ecosystem – meaning the investment world has access to the timeliest data on your company
- **Meet regulatory requirements** - by submitting data relating to the Task Force on Climate-Related Financial Disclosure (TCFD) regulation you can generate a TCFD report via the Contributor Tool. The report can then

The screenshot displays the Refinitiv ESG Contributor Tool interface. The main section is titled 'ENVIRONMENTAL, SOCIAL, GOVERNANCE' and shows a table of ESG metrics. The table has columns for '2020' and '2019'. The metrics are grouped into 'WATER' and 'ENERGY' categories. The 'WATER' section includes 'Policy Water Efficiency', 'Targets Water Efficiency', 'Water Withdrawal Total', 'Fresh Water Withdrawal Total', and 'Water Recycled'. The 'ENERGY' section includes 'Policy Energy Efficiency', 'Targets Energy Efficiency', 'Energy Use Total', 'Energy Purchased Direct', 'Electricity Produced', 'Renewable Energy Use', 'Renewable Energy Purchased', and 'Renewable Energy Produced'. The table shows values for each metric for both years, with some cells containing 'TRUE' or 'FALSE'.
