

We are now Refinitiv, formerly the Financial and Risk business of Thomson Reuters. We've set a bold course for the future – both ours and yours – and are introducing our new brand to the world.

As our brand migration will be gradual, you will see traces of our past through documentation, videos, and digital platforms.

Thank you for joining us on our brand journey.

League Table App

WHY SHOULD I USE THE APP?

League Table app is the next generation league table creation tool in Thomson Reuters Eikon. You can quickly and easily create Thomson Reuters' industry-standard M&A, bond, Equity and syndicated loan League Table rankings with the league table app. These widely published league tables provide insight into market trends, the ability to benchmark versus peers and provide scoring useful across many types of ad hoc internal reporting.

Toggle here to change asset class

"Segment By" options will update based on asset class selection

Export tables to Excel as values or with formulas for further analysis

The screenshot shows the League Table App interface. At the top, there are navigation tabs: LEAGT, FTSE 100, default, Market View, and Company Monitor Research. Below this is a search bar with "Deals League Table" entered. The main interface includes a filter section with "Asset Class: M&A", "Date: Year to Date", and "Segment By: (Select)". The main table is titled "AD49 ANY AMERICAS INVOLVEMENT ANNOUNCED FINANCIAL - YTD" and displays the following data:

KEY FACTS

- The Eikon League Table App provides quick and easy access to **industry standard** Thomson Reuters League tables.
- This intuitive app will decrease the bandwidth requests for standard league table updates, allowing you and your colleagues to quickly create and run league tables from your desktop.
- With the app you can now create and replicate Thomson Reuters published league table data without needing to know any formulas or codes. Simply start with one of the standard sessions from the drop down and adjust the customization options as required.

TOP TIPS ON HOW TO USE THE APP

- To access the League Table app, enter "League table" in the search box and select it from the search results or use the short code **LEAGT**.
- Select from the "**Asset Class**" drop down to view league table options for M&A, Bonds, Equity or Loans. After selecting the "**Segment by**" options will update based on what is available for the asset class.
- Simply click on the drop down to select or begin typing the code for the table that you would like to generate.

This screenshot shows the dropdown menu for the "Asset Class" filter. The menu is open, showing a list of options under the "M&A" category. The options include:

- AD48 Americas Target Announced Financial
- AD49 Any Americas Involvement Announced Financial
- AF54 Americas Target Completed Financial
- AF55 Any Americas Involvement Completed Financial
- FS02a Americas Financial Sponsor Involvement Buyside and Sellside Advisors
- FS02b Americas Financial Sponsor Involvement All Buyside Advisors
- FS02c Americas Financial Sponsor Involvement All Sellside Advisors

At the bottom of the dropdown, there are "Expand All" and "Collapse All" buttons.

- Change your **date range** from either the three available popular date ranges or create a custom date range.
- “**Segment by**” options include Industry and Nation/Region for all tables and **Issue type** for Bonds and Equity.
- Adjust the number of results from the “**Display Top**” drop down, with up to 99 results available.
- Click through any of the items on the league table to view the **full deal list** and summary content. Toggle between advisors/bookrunners from this page.

Field Definition
Rank Date

For transactions announced prior to 2006, Rank Date is the first public disclosure of the intent to merge or acquire. For transactions announced in 2006 or later, Rank Date is redefined to be the earliest public announcement of when a value can be applied to a transaction. If a value cannot be applied at Rank Date, the deal will be credited in the Announced League Tables with an undisclosed value. If a value can be applied at a later date, prior to or upon completion, the Rank Date will be updated and the value will be reflected in the Thomson Reuters Standard Announced League Tables. For most spin-offs and debt restructurings the Rank Date will equal the date the shares are distributed, however if these transactions can be valued prior to the completion (i.e. shares traded publicly or on a when-issued basis), Thomson Reuters will allocate Announced League Table credit on the date the shares can be valued, and not necessarily be when these shares are distributed.
