

We are now Refinitiv, formerly the Financial and Risk business of Thomson Reuters. We've set a bold course for the future – both ours and yours – and are introducing our new brand to the world.

As our brand migration will be gradual, you will see traces of our past through documentation, videos, and digital platforms.

Thank you for joining us on our brand journey.

BUSINESS INTELLIGENCE WHICH ADDS VALUE

Reuters Insider technology makes it easy for viewers to quickly find videos containing the insight that matters to them. Semantic tagging technology identifies key metadata, including company names, ticker symbols, topics codes, industry sectors, geographies and more to drive search, filtering and contextual integrations. Coupled with Thomson Reuters unparalleled experience serving the financial services community, we make video intelligent so viewers spend less time searching and more time learning.

- Time-coded transcripts and enhanced closed captions enable users to search keywords and navigate to specific points in a video.
- Intelligent tagging allows you to pinpoint in-depth videos specifically about companies or subjects of interest – not passing mentions
- Dynamic and customizable playlists based on keywords and Thomson Reuters metadata enable a personalized customer experience
- View detailed analytics to determine which content resonates best with the audience.

Reuters Insider technology makes video intelligent.

SIMPLE AND CUSTOMIZABLE INTEGRATIONS
