

We are now Refinitiv, formerly the Financial and Risk business of Thomson Reuters. We've set a bold course for the future – both ours and yours – and are introducing our new brand to the world.

As our brand migration will be gradual, you will see traces of our past through documentation, videos, and digital platforms.

Thank you for joining us on our brand journey.

THOMSON REUTERS STOCKREPORTS+

THE COMPREHENSIVE SOURCE FOR ANALYTICS AT THE STOCK, INDUSTRY, PORTFOLIO, AND MARKET LEVELS

Optimize your investment selection process. Generate compelling ideas and get time-saving research capabilities with Thomson Reuters StockReports+. We combine our independent research, ratings, and market data for companies within 50 global markets. We place current data into historical context for a more accurate forecasting of a security's performance.

Stock ratings are provided on a scale of one to 10, with clear detail of the data and calculations that comprise the ratings. Our ratings are based on six components – quantitative assessments of key trends on earnings, fundamentals, relative valuation, risk, price momentum, and insider trading. StockReports+ offers enhanced analysis of security pricing, valuation, and fundamental metrics relative to actual market performance. An automated text-generation system provides specific stock and industry highlights. Unique content, such as stock seasonality and extensive insider trading analysis with proven insider scores, is available throughout the reports.

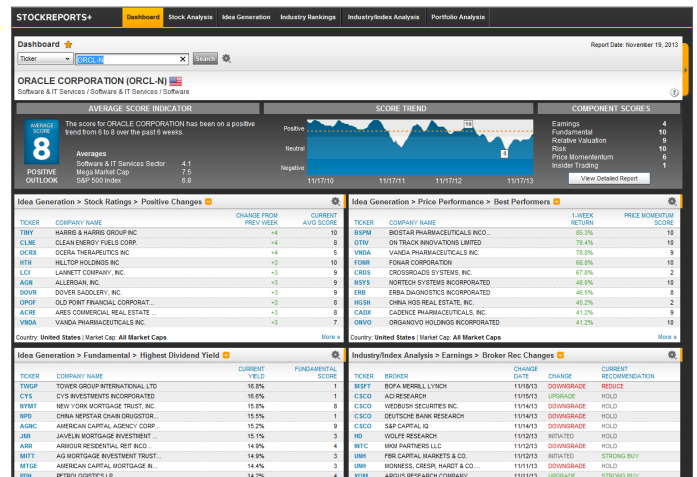

ESSENTIAL DATA AND ANALYSIS FOR INTELLIGENT FINANCIAL DECISIONS

StockReports+ includes an abundance of detail-driven reports in five different reporting sections and a dashboard.

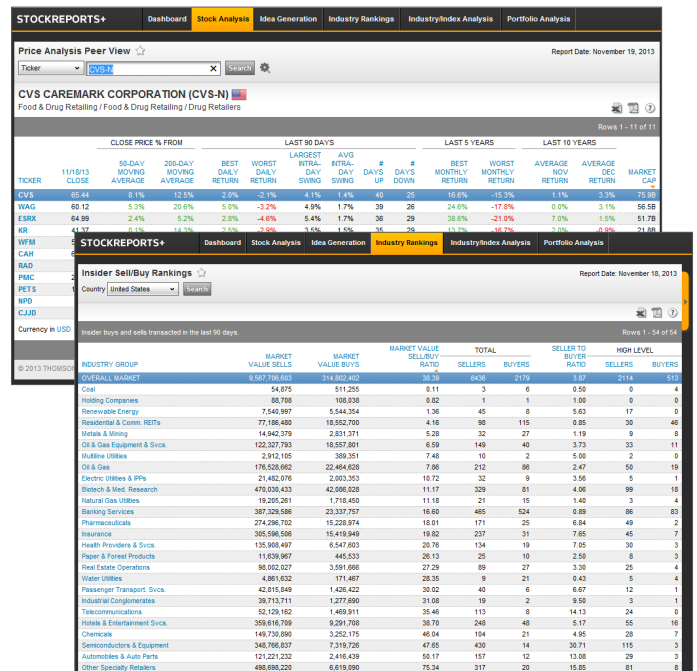

The reports can be viewed in HTML format, printed in PDF format, or exported into Microsoft® Excel® for further data analysis.

- Stock Analysis displays a thorough picture of a company's performance and outlook and includes 10-page and 5-page versions of the Thomson Reuters StockReport+ with ratings and the supporting data elements
- Idea Generation reveals potential candidates through broad-level research of the overall market using stock ratings or common financial metrics
- Industry Rankings identify recent trends among business sectors and industry groups defined by the Thomson Reuters Business Classification (TRBC) schema
- Industry/Index Analysis allows for easy comparison of all companies within leading indexes and industry classifications
- Portfolio Analysis includes detailed information on the individual stocks within customized watchlists

StockReports+ is available on Thomson ONE® or as a stand-alone Web solution. Individual reports can also be integrated into client applications.

Independent research and ratings from a sophisticated product driven entirely by market data.

Detailed reports highlight essential research and provide a full range of idea-generation tools.
