

We are now Refinitiv, formerly the Financial and Risk business of Thomson Reuters. We've set a bold course for the future – both ours and yours – and are introducing our new brand to the world.

As our brand migration will be gradual, you will see traces of our past through documentation, videos, and digital platforms.

Thank you for joining us on our brand journey.

Thomson Reuters Swap Execution Facility (SEF)

Trade FX options and non-deliverable forwards electronically

The Thomson Reuters SEF launched in October 2013 and is regulated by the CFTC. It received permanent approval status in January 2016. The Thomson Reuters SEF allows customers to trade FX options, non-deliverable forwards (NDFs) and NDF swaps electronically through multibank request-for-quote liquidity and an anonymous central limit order book.

More FX market participants comply with Dodd-Frank trading regulations using Thomson Reuters SEF than any other FX dealer-to-client platform.

Designed specifically to help you meet your FX trading, clearing, and reporting obligations as mandated by the Dodd-Frank Act, the Thomson Reuters SEF offers a best execution solution that provides complete end-to-end workflow, including straight-through-processing and settlement.

Benefits

The Thomson Reuters SEF enables you to trade FX derivatives in compliance with new regulations. Additional platform benefits include:

- One integrated system for trading FX spot, forwards, swaps, NDFs and options electronically with SEF and non-SEF executions as appropriate
- Smooth transition to the clearing and trading mandate for NDFs
- Access deep liquidity from over 160 banks and 1,700 clients with choice in executions via multibank RFQ (request-for-quote), RFS (request-for-stream) and anonymous Order Book flows
- Streamline your workflow with a comprehensive solution including allocations, order netting, straight-through processing, settlement and post-trade messaging to the DTCC and clearing houses
- Achieve best execution on a regulated platform that includes compliance, pre-trade price transparency, credit limit checks and reporting

Features

Thomson Reuters flexible system supports advanced functionality including:

- Granular customer trading entitlements for accounts and users that are subject and/or not subject to Dodd-Frank
- End-User Exemption workflows
- End-to-end solution to meet the specific workflow needs of asset managers, hedge funds and corporate treasurers
- Agency access models (Sponsored Access and Trading on Behalf of)
- Pre-trade allocations and bunched orders
- Access to Clearing Brokers, Clearing Houses and SDRs
