A Rate That Empowers Your Market Evaluation
The Thomson Reuters WM/Reuters 2pm CET FX benchmark offers an array of advantages that enable you to execute transactions more confidently.

Fully transparent, IOSCO-aligned methodology
Calculation of the 2pm benchmark is based on the same established, published methodology of the full WM/Reuters benchmark service, which is fully aligned with the IOSCO Principles for Financial Benchmarks.

Calculated from actual market trades
While many benchmarks are based on composite data, the WM/Reuters 2pm CET FX benchmark is calculated on actual, primary market data for select currencies where sufficiently available. These prices are sourced from global trading platforms, Thomson Reuters Matching, EBS and Currenex, and create a more accurate rate.

The trusted industry standard
The WM/Reuters 2pm CET FX benchmark is part of the Thomson Reuters WM/Reuters family – a series of FX benchmarks that more than 1,000 financial institutions worldwide currently rely on to achieve greater clarity in evaluating markets. With a reputation for objectivity, transparency and reliability, WM/Reuters FX benchmarks have earned the respect of central banks and national regulators around the globe. They are widely accepted by auditors and have been adopted by leading equity, bond and index publishers.

A choice of services to align with your data needs
We offer a free of charge service with Mid rates for 32 currencies against the EUR available daily (with a 30-minute delay) on our web site at financial.tr.com/wmreuters

However, because firms have varying data requirements, we also offer a more comprehensive independent subscription to the WM/Reuters intraday service. This subscription will provide you with rates for all 150+ currencies followed against the EUR, GBP and USD.

About Thomson Reuters Benchmark Services
