

POWER YOUR QUANT RESEARCH AND BACKTESTING WITH OUR DATA

Access all Refinitiv financial data to carry out your quant research how it suits you

Tailored specifically for quants like you, the Refinitiv® Quantitative Analytics Cloud Research-Only Instance allows you to pivot your research focus by selecting a wide array of financial data – available at your fingertips whenever you need it.

Explore and test all of our data at your own pace. You can try as many content sets at one time as you want. And you'll only pay for any individual content set license when you are ready to move into production with it.

Forget the time and logistics it would take to trial each Refinitiv content set individually. With the Research-Only instance, you have more time to develop your investment ideas without worrying about time-consuming paperwork and cumbersome processes.

We offer you an unbeatable depth, breadth and history of financial data. The Research-Only instance includes the full Refinitiv data set – giving you the entire coverage/history for your testing. Plus unique content sets such as Refinitiv® StarMine® Models to help you generate invaluable insights and alpha. Any new content Refinitiv introduces to Quantitative Analytics automatically becomes available in the Research Only instance.

You'll find that Research-Only instance gives you more flexible use in your firm. With quick access to Refinitiv data, you can start your search for alpha sooner by exploring the industry's best-of-breed data and creating views, indices and store procedures.

The Research-Only instance lets you and your quant colleagues combine multiple Refinitiv data sets to find signals and build confidence in investment ideas and strategies before creating a model.

Get access to the full history for all Refinitiv content sets up to the end of the previous quarter, allowing you to backtest your investment strategies with confidence.
