

THIRD-PARTY PROVIDER ADDITIONAL TERMS

Refinitiv products may include data and/or software from third parties.

In addition to the rights and restrictions set forth in agreement(s) that you have entered into with member(s) of the Refinitiv group (“Refinitiv”), your use of Refinitiv services is subject to the following terms:

1. Third-party providers are third-party beneficiaries of Refinitiv’s rights and remedies under the agreement(s) between you and Refinitiv. You agree to comply with all applicable third-party provider terms. Those terms may be supplied to you within the service or directly by the third-party provider. We are, from time to time, required to provide our client contact details to our third-party providers to the extent that they need such details in order to enable them to execute their contractual responsibilities.
2. You must obtain all prior approval for control and redistribution of third-party provider data, software or services. You are responsible for any and all costs and fees associated with agreements entered into with any such third-party provider. If a third-party provider ceases to make its service available to Refinitiv, or requires Refinitiv to suspend or terminate the provision of all or any part of its services to you, or if Refinitiv terminates its arrangements with the third-party provider, then Refinitiv may suspend or terminate that part of its data or services immediately, without notice or further obligation to you.
3. Except where you have entered into a relevant written agreement directly with a third-party provider, you have no contract with any third-party provider in respect of the supply or use of any third-party data or services. Third-party providers do not owe you any duty of care with respect to their data or services, nor do they accept any responsibility for them. If an implied contract or duty should be held to exist, Refinitiv, as agent for each third-party licensor and solely for the purpose of the following exclusion, disclaims all liability of each third-party licensor for any of your losses, which may arise under that implied contract or duty.
4. Third-party providers do not warrant that the provision of their data, software or services will be uninterrupted, error free, timely, complete or accurate, nor do any of them make any warranties as to the results to be obtained from use of the same. You acknowledge that third-party data, software or services do not constitute a recommendation of any kind and are provided for informational purposes only. You expressly agree that your use of third-party data, software or services is at your own risk. Accordingly, the third-party providers will not in any way be liable to you, or any other entity, for any inaccuracies, errors, omissions, delays, damages, claims, liabilities or losses, regardless of cause, in or arising from the use of the third-party data contained in Refinitiv’s services.

Fitch	Disclaimer and attribution	To the extent that you allow persons within or without of your organization to have access to Fitch Data, clients are responsible for ensuring their compliance with the following terms and conditions. 1. Ownership. Fitch Information (including but not limited to the collection and presentation of the information contained in any database) is owned by or licensed to Fitch, and contains the valuable copyrighted and proprietary material of Fitch or its licensors, and all rights in or to Fitch Information not granted to Subscriber are expressly reserved by Fitch and its licensors. 2. Disclaimer. End users of Refinitiv Limited's clients ("End Users") are granted the right to extract limited data from the data and other information provided by Fitch Ratings Limited ("Fitch") and its affiliates (together, the "Fitch Information") onto such End Users' desktop computers. Fitch retains sole ownership of and proprietary rights in the Fitch Information. Any Fitch Information extracted by End Users may only be used and/or maintained on such End Users' desktop computers. However, End Users are permitted to redistribute an insubstantial amount of the Fitch Information on an occasional and incidental basis only. EXCEPT AS EXPRESSLY PERMITTED ABOVE, NONE OF THE FITCH INFORMATION MAY BE COPIED OR OTHERWISE REPRODUCED, REPACKAGED, FURTHER TRANSMITTED, TRANSFERRED, DISSEMINATED, REDISTRIBUTED, SOLD OR RESOLD, OR STORED FOR SUBSEQUENT USE FOR ANY SUCH PURPOSE, IN WHOLE OR IN PART, IN ANY FORM OR MANNER OR BY ANY MEANS WHATSOEVER, BY ANY PERSON WITHOUT FITCH'S PRIOR WRITTEN CONSENT. The Fitch Information is derived from sources believed to be accurate and reliable. SUCH INFORMATION IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND AND NEITHER REFINITIV LIMITED NOR FITCH MAKES ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH INFORMATION. Under no circumstances shall Refinitiv Limited, Fitch or any of its affiliates have any liability to any End User or any other legal entity (whether incorporated or unincorporated) or any person for (a) any loss or damage in whole or in part caused by, resulting from or relating to, any error or other circumstance or contingency within or outside the control of Fitch or any of its affiliates, or any of its or their respective directors, officers, employees or agents in connection with the procurement, collection, compilation, analysis, interpretation, editing, transcription, transmission, communication, publication or delivery of any such information, or (b) any direct, indirect, special, consequential, compensatory or incidental damages whatsoever (including, without limitation, lost profits and/or loss of opportunity). In addition to the above terms and conditions, access to and use of Fitch Information is subject to the following terms of use (the "Terms"): In issuing and maintaining its ratings, Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction.

Supplier name	Main category	Description
Fitch cont.	Disclaimer and attribution	<p>The manner of Fitch’s factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of preexisting third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch’s ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed. Fitch seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on the Fitch website (www.fitchratings.com) (the “Fitch Website”) of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the Fitch Website at a given time. For this reason, End Users should always consult the applicable rating action commentary for the most accurate information on the basis of any given rating. Each End User acknowledges that a Fitch rating is an opinion as to the creditworthiness of a security. This opinion is based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at anytime for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Fitch is not responsible for any underwriting, credit, loan, purchase, strategic or investment decision. In issuing and/or maintaining a rating, Fitch is not making any recommendation or suggestion, directly or indirectly to End Users, or any other person, to buy, sell, make or hold any investment, loan or security or to undertake any investment strategy with respect to any investment, loan or security of any issuer. Ratings do not comment on the adequacy of market price, the suitability of any investment, loan or security for a particular investor (including, without limitation, any accounting and/or regulatory treatment), or the tax-exempt nature or taxability of payments made in respect to any investment, loan or security. ANY PERSON OR ENTITY WHO USES A RATING DOES SO ENTIRELY AT HIS, HER OR ITS OWN RISK. SHOULD ANY SUCH PERSON OR ENTITY BE ENTITLED TO RECOVER DAMAGES FROM FITCH UNDER ANY LEGAL THEORY, SUCH PERSON OR ENTITY AGREES, TO THE EXTENT PERMITTED BY LAW, THAT THE TOTAL LIABILITY OF FITCH IN CONNECTION WITH SUCH RATING IS LIMITED TO ACTUAL DIRECT DAMAGES THAT CAN BE PROVEN UP TO AN AMOUNT NOT TO EXCEED THREE TIMES THE NET FEES RECEIVED BY FITCH WITH RESPECT TO SUCH RATING. Fitch receives fees from issuers, insurers, guarantors, other obligors and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication or dissemination of a rating by Fitch shall not constitute consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of Great Britain, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers. End Users should read the Terms carefully (including the limitations and disclaimers contained in the Terms) before accessing the Fitch Information furnished to it by Refinitiv Limited. Each End User shall be deemed to have agreed to be legally bound by the Terms (including its limitations and disclaimers) from the date on which it first accesses any Fitch Information.</p>

London Stock Exchange/SEDOL	Restrictions over and above your Refinitiv subscriber agreement	<p>Customers wishing to store, extract, download and or reproduce SEDOL codes are required to sign a license agreement with the London Stock Exchange. The following exceptions apply: Where the customer has stored or archived off SEDOL codes for regulatory purposes, as long as the customer can demonstrate that there are controls in place to ensure SEDOL codes that only named individuals can access that data for regulatory or regulatory support purposes, then all SEDOL codes within this database can be discounted. Where a vendor is unable to control or permission the level of codes provided to the customer, codes which are not being processed, as defined above, may be discounted. In such cases, the vendor is required to provide to the London Stock Exchange lists of all customers that have the ability to access SEDOL codes and the London Stock Exchange will contact such customers to ascertain whether they are processing SEDOL codes. However, the customer would be expected to technically demonstrate to the London Stock Exchange that these discounted codes are being discarded and/or archived for regulatory purposes. Where SEDOL codes are being held, but are not being processed (as per the definition above) because trading has officially ceased (for example, delisting or maturity date expired) in the security to which they relate, they can be discounted. Examples: 1. Some companies may outsource their transactions processing to a service bureau. Where the customer is passing transactions processing information to the service bureau that includes SEDOL codes, a usage license will be required based on the number of SEDOLs included. Where the service bureau holds the license for the SEDOL codes, and the customer cannot control the number of SEDOL codes that they access, only SEDOL codes being processed should be included in the count for banding purposes. 2. Where a central office provides related group companies access to the SEDOL codes (e.g., maintaining a central database or distribution of internal data feeds), this will fall under the meaning of usage for banding purposes with each related company requiring its own User License. The central office or distributing office will not need a Distribution License, provided it agrees to report annually all related group companies that access the data in this way and for the Exchange to have the right to audit such report. If the central office or distributing office provides non-group companies or customers access to the data, then a full Distribution License will be required. For further information, please refer to the SEDOL Masterfile Pricing and Policy Guidelines, or contact the London Stock Exchange SEDOL team: info: sedol@londonstockexchange.com.</p>
